

# Peel & Halton COVID Cold and Flu Care Clinics

- At COVID, Cold and Flu Care Clinics your patients will be clinically assessed by a doctor or NP and given a COVID test (if eligible). These clinics are not meant to replace comprehensive primary care by a patient's own provider.
- These clinics are funded through H-codes and therefore will not result in any primary care office penalty for referral.
- If your patient is symptomatic and needs to be seen for an in-person visit, but you are unable to accommodate them (i.e. due to clinic space limitations, personal medical status), they can go to a COVID, Cold and Flu Care Clinic rather than sending them to the emergency department or deferring care.
